2.5" Mass Storage Disk Caddie
USB-HD2.5 *High Speed USB Backup*

6 star award
PC PRO – Oct 06

Introduction

Need a low cost Hard Disk enclosure for your IDE 2.5" Disk Drives? Or do you want to make use of an old IDE Laptop Hard Disk for cheap offline storage for your digital world?

The new USB-HD2.5 from Dynamode is a stylish, high reliability external caddie for all 2.5" IDE Hard Disks up to around 80Gbytes in capacity.

Featuring full 'Hot' Plug n' Play coupled with a super slim anodised aluminium shell for durability and heat dissipation the USB-HD2.5 draws its power directly from the USB Bus and allows totally flexibility for both Laptop, Desktop and Server applications alike.

With support for both Windows® ME/2000/XP and MAC OS 8.6 or above this Disk Caddie allows for complete offline data storage at such a low cost it will appeal to Home and Business users alike.
